## More than care

### Your child in our focus

Parents want their children to be safe and well looked after.

Children want freedom to do what is important to them.

In our KiTa, the independence of each individual child is our main focus.

Family-based, individual care and support through free play and group activities are the basis for a variety of learning and development opportunities. Our goal is to promote the development of social competence, personal responsibility and autonomy of each child. Our pedagogically qualified team is enthusiastically committed to this every day.

Through the intensive language support, the language is naturally integrated into everyday life. The children experience the language. They link experiences and emotions with the language and learn how to use it in a playful way - even with their mother tongue!

Last but not least, the children experience a healthy eating culture with balanced, regular and child-friendly meals at our lunch tables.

# Language - Early - Enhancement

## German or Bilingual

Learn German/English: understand words, differentiate between terms, assign them and use them correctly. Experiment with sounds and words, play, experience the rhythm of the language.

### At Kimby we promote language skills in the categories:

- 👉 naming / recognition
- 👉 instructions/understanding
- 👉 organizing/regulating
- 👉 Being in dialogue
- 👉 asking questions
- 👉 the power of imagination
- 👉 to think of something

### Kimby's practice areas are:

- 👉 People/Culture/Family/Customs
- 👉 I / my body / my feelings / 5 senses
- 👉 Nature/animals/environment/recycling
- 👉 color/shapes/numbers
- 👉 Sizes/quantities/room
- 👉 Seasons/weather/weekdays/months
- 👉 Objects/tools/materials
- 👉 Idioms / specific terms

Kimby ensures that the language requirements for the screening tests as recommended by the Swiss Society of Pediatrics are met according to age (12-48 months).

# Movement

## Sport

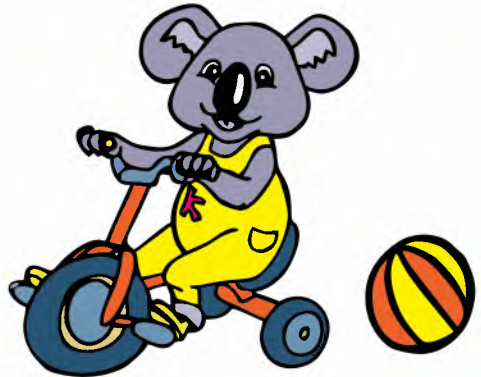

Build and strengthen dexterity, self-confidence and self-esteem through movement. Thanks to Kimby's wide range of movement options, it is easy to discover, build and strengthen coordination, reaction speed and a feeling for the use of one's own physical strength from an early age.

### The categories are:

- 👉 Coordination
- 👉 Reaction
- 👉 Orientation
- 👉 Balance
- 👉 Strength and endurance

### Kimby's exercise areas:

- 👉 keep the head upright while lying down
- 👉 turn from back to belly
- 👉 pull themselves up on furniture
- 👉 support yourself from lying down to sitting
- 👉 lean on the forearms
- 👉 run/throw/catch/slide/jump/jump/balance/crawl
- 👉 climbing up and down
- 👉 Grab & hold objects
- 👉 Tweezer handle
- 👉 scribble / paint / dance

Kimby offers fine and gross motor programs to meet the motor skills requirements for screening examinations as recommended by the Swiss Pediatric Society for age-appropriate (12-48 months).

# Social Skills

## Society and living together

Build and master social skills by: Taking initiative, protecting oneself from assault, representing one's own ideas/opinions, coping with success and failure, learning from mistakes, understanding and respecting others.

**Kimby builds and strengthens each child's social skills in the categories:**

- 👉 Perception
- 👉 Self-education
- 👉 Trust
- 👉 Decisions
- 👉 Conflicts
- 👉 Empathy-Compassion

**The exercise areas are:**

- 👉 Taking the initiative
- 👉 Recognize assaults
- 👉 Develop/implement ideas
- 👉 express/represent opinions
- 👉 Accept success & failure
- 👉 Admit/resolve errors
- 👉 Expression/control of emotions
- 👉 Recognize/understand/apply rituals
- 👉 Understand/apply/comply with rules

Kimby ensures that recurring sequences in the weekly schedule meet the requirements for developing social skills for screening according to the recommendation of the Swiss Society of Pediatrics, age-appropriate (12-48 months).

# Values

## Our values guide the behavior of all employees

### **Sustainability**
